Beginning of **SUMMER**

The twenty-four solar terms contain the law of the cycle of all things. From the thawing of the east wind, to the blossoming of the peach blossoms, from the fish play with lotus in the pond, to the swan geese be the guests in the South. And the beginning of summer is exactly the time when spring ends and summer comes, and when it comes to beginning of summer, spring flowers are all gone, and summer trees are shaded. Everywhere is full of emerald green and full of vitality.
